## **Santa Says Keep the Element of Innocence & Child Alive Within!**

The jingling of bells and the impeccably adorable decorations at every corner of the city indicates the onset of Christmas Eve. We are going to celebrate Christmas 2018 in a few days and it is the beginning of the New Year Eve celebration. And, Santa Claus, the name that has been given to the harbinger of happiness and joy adds the special element of innocence to our life.

Santa Claus brings with itself the special message of hope, happiness, joy, and merriment! He says, never let that magical element of innocence from your life. Keep the child within you always alive and make sure that you add, a little of that element in everything you are doing. From his sparkling eyes to his spectacle, snow-white beard, and unique red gown everything is probably designed to convey a message.

Let's find out, how Santa Claus is the reinforcement of generosity and what message he wants to convey for living a happy and prosperous life. The sparkling eyes of Santa represent the innocence of a child. It encourages us to rediscover that hidden treasure trove of childish behavior within us and incorporate that special element of innocence in whatever you are doing.

Those loving eyes reflect the concern for life within life.

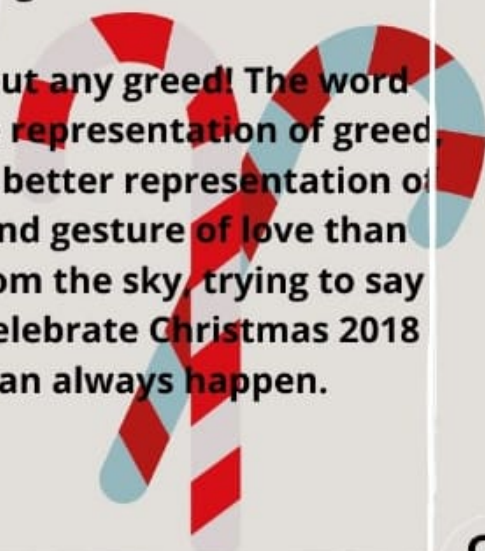

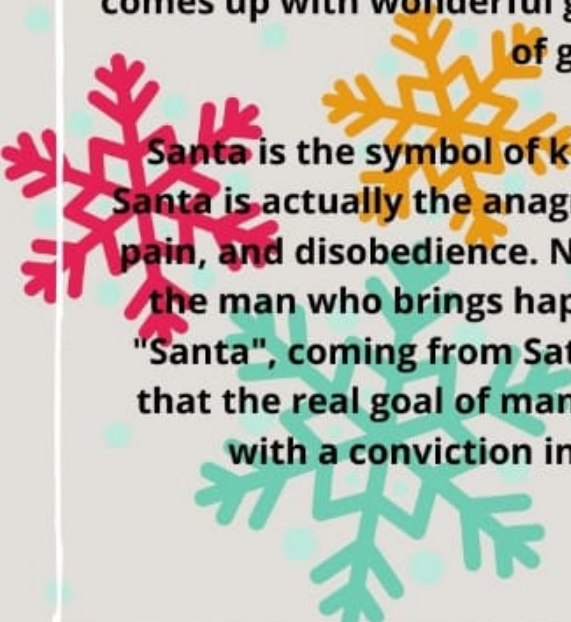

Come again at his quirky way of wearing those beloved pairs of spectacles! You will notice the difference, and how it says that he is not going to see the world through any of the set lenses of perception and stereotype. It represents that his way of looking at the world is broad, and that's really a beautiful idea.

And, those snow-white dense beard symbolizes the great wealth your wisdom could be to every situation in your life. It shows that purity of your heart is the greatest wealth, and is as soothing and pleasant to the eyes as those weird, but a wonderful snow-like beard. Santa Claus keeps it this dense to show that there's too much joy in life if you have the courage to look at it precisely.

Christmas 2019 is around the corner and it comes to fill us with a tremendous amount of energy to tackle one more year ahead with a happy heart. Each one of us has that energy and enthusiasm within us, but we lose it somewhere when we are stuck an unpleasant in life. And, the Santa Claus draped around in that large red gown symbolizes that bank of energy within!

Santa Claus, with his big fat bag of gifts, he represents abundance and happiness! What is a gift? It's a way of spreading happiness and bringing about a smile on the recipient's face. And, the secret Santa, every year at Christmas, comes up with wonderful gifts that can make people happy. His fun-filled way of gifting is always exhilarating!

Santa is the symbol of kindness and service without any greed! The word Santa is actually the anagram of Satan, which is the representation of greed, pain, and disobedience. Nothing could have been a better representation of the man who brings happiness around with his kind gesture of love than "Santa", coming from Satan. He comes flying all from the sky, trying to say that the real goal of man is spiritual upliftment. Celebrate Christmas 2018 with a conviction in the heart that miracles can always happen.
